

## Resource Information Request

One of the objectives of the National Parent Leadership Development Project for ICCs is to provide and maintain an on-line clearinghouse of training materials, by-laws, conference agendas, contact information, and any other resources which have proven useful in supporting the work of parents serving on councils across the country. The growth and usefulness of this database will therefore depend heavily on contributions from the same individuals who access it—that is, parent leaders committed to enhancing the network that exists among ICCs, across communities, across states, and across the nation.

If you have a resource that you feel we should include in our clearinghouse, please attach this completed form to it and send the material(s) to us at the address listed below.
